

## GRAM COMPACT COUNTERS

Combining low cost of ownership with premium reliability

**NEW**

## Combining low cost of ownership with premium reliability

GRAM COMPACT counters are the new range of GN 1/1 counters designed for busy caterers who demand a reliable easy to maintain counter with a low cost of ownership.

The range comprises of 1/1 gastronorm counters, available as a refrigerator or freezer with two or three door sections.

Our counters are carefully designed to ensure the optimal circulation of air at all times. Refrigerated air is circulated around the cabinet to maintain the storage of foodstuffs at the correct temperature.

The exterior and interior are made of stainless steel with an inside door cover of foodsafe grey ABS.

The temperature range is between +12 °C and -6 °C on the refrigerators and -7 °C and -25 °C on the freezers. These cabinets offer great versatility as they can be used for different types of storage as requirements change or seasonal changes dictate menu variations.

### Easy maintenance

Easy access to front loaded air filter for cleaning.

### Easy service

A compact slide out refrigeration unit for easy maintenance and service access.

### User-friendly controller

Control panel with digital thermometer/thermostat for accurate control and easy reading. A transparent plastic cover protects against accidental adjustment of temperature and fluid spillage.

# GRAM COMPACT COUNTERS

## Easy cleaning

Removable door gaskets for easy cleaning.

## Adjustable shelves

The counter offers one height-adjustable shelf per section as standard.

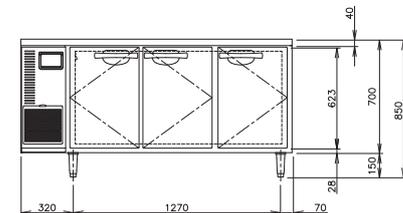

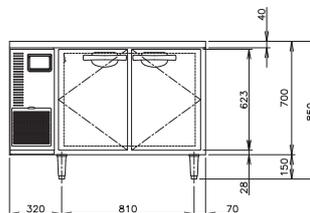

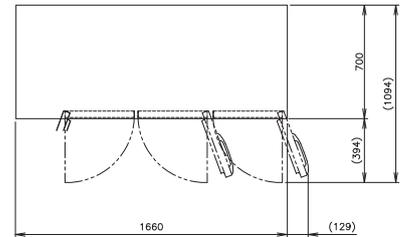

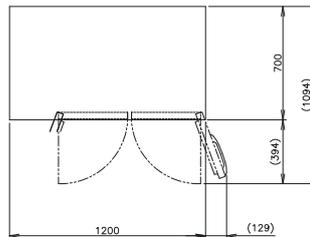

## Hygienic design

Dished stainless interior and base with rounded edges for easy cleaning.

## Castors or legs

A choice between lockable castors and adjustable legs. The leg height is from 150 to 180 mm.
